

July Walks Programme

Ramblers Association of Malta

Friday 9th July: Pembroke Reverse Osmosis Plant

We will be taken around the plant and the tour leader will explain the details of how reverse osmosis works. As you know, the RO plants around Malta produce 55% of our potable water, so this is a highly interesting subject for us. This tour is strictly limited to thirty people, and is against a payment of €2.50 per person, payable on the day (please bring exact change). We reserve the right to increase the amount per person if we have less than thirty people, as the amount we need to pay is for the whole group, not per person.

As mentioned above, this tour is restricted. So if you are interested please book by sending an email to ram205@gmail.com, quoting **Pembroke RO Plant** in the subject. Please do not expect an immediate response to your email. However, no reply means that you have been accepted. Once the tour is full, we will send out an email to close off this event, plus another email to all those who have been accepted.

Duration: About 2 hours

Rating: Easy

Meeting Place: Pembroke Reverse Osmosis Plant

Time: 0845 sharp

Saturday – 17th July - Military Fortifications on Marfa Ridge (Circular) - Scenic, Historical

The idea of this walk is to 'discover' the fortifications built by the Knights of Malta in this area, such as batteries, redoubts, entrenchments... More historical details will be given during the walk. Moreover, if we are lucky we can observe also a spectacular sunrise. Part of the walk will be on a cliff edge.

Duration : 4 to 5 hours

Rating : Moderate, with some easy slopes

Meeting Place : Parking area near Mellieha Bay Hotel

Time : 5:00 am sharp
